RE: 2021 Water Main Replacement Program

Dear Resident:

The contractor is expected to have the full length of new water main pulled into place on Hollywood by the end of the day. Weather permitting, the contractor will install new valves and hydrants on the new water main next week. Once the new valves and hydrants are installed, the contractor will fill and disinfect the new water main and test it for pressure and water quality.

Once the water main has passed testing, the water services will be reconnected to the new water main and the contractor will begin with backfill, pavement, and restoration work.

GENERAL CONSIDERATIONS

Please place garbage curbside by 7:00 a.m. as normal. **Please place BAGS ONLY at the curb in order to facilitate garbage removal during construction.** Recycling and brush will not be picked up curbside during construction. Residents may bring their recycling to the DPW at 1200 Parkway Drive, Monday through Friday between 7:00 a.m. and 4:00 p.m.

Please note, the contractor is responsible for maintaining access for emergency vehicles throughout construction. However, in order to reduce the potential for incidents, the Public Safety Department has asked to please refrain from using fire pits and chimneys during construction.

If you have any concerns or special needs during construction, please contact the onsite representative from the City's Consultant Anderson, Eckstein and Westrick, Inc. (AEW), Greg Brown. Questions regarding construction operations should be directed to the attention of AEW at (586) 726-1234. Please direct any other questions to the Department of Public Works (313) 343-2460.

Very truly yours,

CITY OF GROSSE POINTE WOODS

Frank Schulte, Director of Public Services
