

## **CITY OF GROSSE POINTE WOODS, MICHIGAN**

### **NOTICE TO BIDDERS BIDS AND SURPLUS AUCTIONS**

The Michigan Inter-governmental Trade Network (MITN) is an online bidding service created by a group of local municipalities in Oakland, Macomb and Wayne Counties. MITN was developed with the help of BidNet a New York company that manages purchasing websites that are available nationwide. Through this system, vendors can access bids, surplus auctions and other information online.

Vendors, contractors and other interested parties can register to use the system at the [MITN Website](#). There is no cost for registration with MITN; however there is a fee if the registrant wants to receive e-mail or fax notification of bid postings or auctions.

On Monday July 30, 2007, the City of Grosse Pointe Woods began participation in the MITN surplus auction site. If interested in viewing items up for auction please the [MITN Website](#), click on surplus actions and follow the appropriate prompts.
