DON R. BERSCHBACK, City Attorney

To: Alfred Fincham, City Administrator

From: Bruce Smith, Public Safety Director

Date: December 22, 2015

Subject: Budget Amendment Request: Contract with Specialist Karen Brown to prepare application for FEMA Assistance to Firefighters Grant

As you are aware, the Public Safety Department’s Self-Contained Breathing Apparatus Equipment (SCBA) is 25 years old. It is reaching the end of its useful life and will need to be replaced. This is essential life safety equipment for our officers when engaging in firefighting activities. The SCBA consists of a harness, regulator, air bottle, and face piece. Along with their helmet, boots and turnout gear, the SCBA protects the firefighter from flames, heat, and toxic gases. The SCBA equipment is mounted on the fire apparatus and in the trunks of the patrol cars. Additional spare bottles are carried on the trucks.

This equipment is tested annually. This past fall the air bottles were tested and five bottles were removed from service for failing the testing. Several were removed during the last testing period. The harnesses themselves are also showing their age after 25 years of service.

This equipment must be replaced in whole when changing due to the training of the firefighters and the incompatibility of the existing equipment with the new. When our portable radios are being replaced, we were able to buy some each year until they are all replaced. This cannot be done with the SCBA equipment. We have obtained a recent quote for the replacement of this equipment in November of 2015. The cost for this equipment was $101,635.00 as furnished by Apollo Fire Equipment Company. A copy of this quote is attached. This represents a major investment by the City to replace this equipment. There is a grant funding source for this equipment. The Federal Emergency Management Agency sponsors the Assistance to Firefighters Grant Process annually and that process is currently underway.

The Department has made two recent attempts to obtain this equipment via the FEMA grant process and was turned down on both occasions. Experience has proven that it is often advantageous to employ the assistance of a person experienced in such grant writing to improve the department’s chances of being awarded a grant. When I worked in Oak Park, we employed a grant writer who was successful in obtaining a grant for four Public Safety Departments to obtain new SCBA equipment. Previous attempts by in-house personnel also proved to be unsuccessful.
After returning from the IACP Conference this past fall, I met Ms. Karen Brown who has been writing grants for the Detroit Police and Fire Departments since 2012. Prior to that time, she worked in the private sector writing grants. When asked, she said that she would be interested in working with our department to write a grant for the needed SCBA Equipment. She sent her resume and a proposal to assist our department in the current grant period at a cost not to exceed $6,000.00; billing at a rate of $75.00 per hour. This grant period opened on November 30, 2015 and grant applications are due January 15, 2016. Ms. Brown said she would be able to complete the application in time to be submitted on January 15.

I would like to request that an amendment to the 2015-2016 fiscal year budget in the amount of $6,000.00 be made to increase the amount of the 101-339-818.000 Contractual Services - Fire Services fund be made to cover the grant writing service. The funds would need to be taken out of the General Fund.

Under the FEMA Grant stipulations, the local match for a city with the population of Grosse Pointe Woods, (under 20,000) falls in the tier of a 5% local match. With an estimated cost of $100,000.00, our match would be $5,000.00. The City is not obligated to accept the grant if one would be awarded.

This equipment is vital to the fire operations of the Public Safety Department. The equipment is near the end of its service life. One of FEMA's requirements for SCBA is that the existing equipment must be at least ten years old and ours is more than double that requirement. I am recommending this proposal to assist the department in preparing the grant application be strongly considered as there is much to gain.

Respectfully Submitted,

Bruce Smith, Director

Re: Proposal for 2015 AFG Grant Preparation

Dear Chief Smith:

Thank you for the opportunity to provide you a quote for preparing your 2015 Assistance to Firefighters Grant application. In order to prepare a successful application on behalf of your department, your staff will need to supply me with the anticipated cost of the equipment to be procured, information about your fire department's size, budget, run data, and other supporting documentation.

I can prepare the grant for an amount not to exceed $6,000, and will make every attempt to come in under that amount. Services, including meetings and phone consultation, will be billed at $75 per hour.

I've attached a copy of my resume, and a list that highlights some of the successful grant applications that I've prepared on behalf of other cities. Please don't hesitate to contact me (brownke50@gmail.com) if you need additional information.

Sincerely,

Karen C Brown
