

October 3, 2014

The Board of Trustees
City of Grosse Pointe Woods Employees Retirement System
Grosse Pointe Woods, Michigan

Dear Board Members:

The purpose of the annual actuarial valuation of the City of Grosse Pointe Woods Employees Retirement System as of June 30, 2014 is to:

- Compute the liabilities associated with benefits likely to be paid on behalf of current retired and active members of the Retirement System,
- Compare accrued assets with accrued liabilities to assess the funded condition of the Retirement System, and
- Compute the City's recommended contribution rate for the Fiscal Year beginning July 1, 2015.

This valuation has been conducted in accordance with generally accepted actuarial principles and practices. Data concerning active members, retirees, beneficiaries and assets was provided by the City. This data has been reviewed for reasonableness, but no attempt has been made to audit such information. The valuation was based on the provisions of the Retirement System as amended through June 30, 2014. The actuarial assumptions used in this valuation represent reasonable expectations of future experience under the System. This report was prepared under the direction of a member of the American Academy of Actuaries who meets the qualification standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Respectfully submitted,

Denise M. Jones

Senior Consultant

Sandra W. Rodwan

Member, American Academy of Actuaries

Section One:
Valuation Summary

Purpose of Valuation

The purpose of the annual actuarial valuation of the City of Grosse Pointe Woods Employees Retirement System as of June 30, 2014 is to:

- ❖ Compute the liabilities associated with benefits likely to be paid on behalf of current retired and active members of the Retirement System,
- ❖ Compare accrued assets with accrued liabilities to assess the funded condition of the Retirement System, and
- ❖ Compute the City's recommended contribution rate for the Fiscal Year beginning July 1, 2015.

This valuation is exclusive of post-retirement health benefits.

Liabilities and Funded Condition of Retirement System

Total accrued pension liabilities of the Retirement System as of June 30, 2014, were computed to be \$45,452,820. The funding value of accrued assets allocated to pensions was \$37,751,220. The ratio of the funding value of accrued assets allocated to pensions to accrued pensions liabilities was 83.1%.

Funding Value of Assets

A funding value of assets was used for the June 30, 2014 valuation. The funding value spreads the difference between the actual and assumed investment return over 5 years.

Computed City Contribution Rate

The City's normal cost contribution rate for pensions was computed to be 6.56% for General members and 8.98% for Public Safety members. Amortizing the unfunded accrued liability over 25 years resulted in an amortization payment of 10.26% of member payroll.

Retirement System Experience

Overall experience of the Retirement System was generally offsetting during the year ended June 30, 2014. The return on the market value of assets was significantly greater than the assumed rate. However, the funding value of assets spreads the difference between the actual return for the year and the assumed return over 5 years. The nominal rate of return on the funding value of assets was 7.05% versus the 8.0% assumed rate. This experience was largely offset by salary increases which were less than assumed.

Benefit Provision Changes

There were no benefit changes included in this valuation.

Assumption and Method Changes

There were no assumption or method changes.

***Actuarial Calculations –
Funding***

Computed Contribution Rates for The Year Beginning July 1, 2015

The contribution rates shown below are expressed as percents of active member payroll.

The normal cost can be viewed as the long-term on-going cost of the Retirement System.

The unfunded actuarial accrued liability was amortized as a level percent of payroll over 25 years. The 25 year period is the same as the period used last year to amortize the excess of accrued assets over accrued liabilities.

<u>FOR PENSIONS</u>	<u>Percents of Payroll</u>	
	<u>General</u>	<u>Public Safety</u>
Normal Cost		
Regular Retirement	8.34%	9.27%
Pre-retirement Death	0.53	0.72
Disability	1.12	3.51
Withdrawal	<u>1.72</u>	<u>1.48</u>
Total Normal Cost	11.71	14.98
Member Portion	5.15	6.00
City’s Computed Normal Cost	6.56	8.98
Total Unfunded Accrued Liability	10.26	10.26
City’s Contribution Rate for Pensions	16.82%	19.24%
City’s Dollar Contribution*	\$391,916	\$451,943

*Based on valuation payroll of \$2,196,932 and \$2,214,770 for General and Public Safety respectively, projected to mid-way through the contribution fiscal year.

Unfunded Actuarial Accrued Liability

	<u>6/30/2014</u>	<u>6/30/2013</u>
Actuarial Accrued Liability	\$45,452,820	\$44,949,686
Assets Allocated to Funding	<u>37,751,220</u>	<u>37,170,824</u>
Unfunded Actuarial Accrued Liability	\$7,701,600	\$7,778,862

(a) After changes in actuarial assumptions.

Results shown throughout this report for years prior to 2008 were prepared by the previous actuarial firm.

Comments and Conclusion

Comments: Overall experience of the Retirement System was generally offsetting during the year ended June 30, 2014. The return on the market value of assets was significantly greater than the assumed rate. However, the funding value of assets used for the valuation spreads the difference between the actual return for the year and the assumed return over 5 years. The 5 year period was adopted by the Retirement Board effective beginning with the 2011/2012 FY contribution. This experience was largely offset by salary increases which were less than assumed.

Conclusion: The Retirement System is funding benefits in accordance with a sound level percent of payroll funding objective.

Section Three:

***Retirement System
Benefit Provisions***

Benefit Provision Summary

Regular Retirement ***(No reduction factor for age)***

Eligibility:

General, Dispatchers/Paramedics and Public Safety members:

Age 50 with 25 years of service, age 55 with 20 years of service, or age 60 with 10 or more years of service.

Annual Benefit:

General members - Hired prior to April, 2011:

Final Average Compensation (FAC) times the sum of 2.0% times the first 25 years of service plus 1.0% times years of service in excess of 25 years.

General members - Hired after April, 2011:

Final Average Compensation (FAC) times 1.75% times years of service.

Dispatchers/Paramedics – Hired prior to July 1, 2011:

2.125% of Final Average Compensation (FAC) times service.

Dispatchers/Paramedics – Hired after July 1, 2011:

1.75% of Final Average Compensation (FAC) times service.

Public Safety Officers and Command – Hired prior to July 1, 2011:

2.5% of Final Average Compensation (FAC) times service to a maximum of 75% of FAC.

Public Safety Officers and Command – Hired after July 1, 2011:

2.0% of Final Average Compensation (FAC) times service to a maximum of 75% of FAC.

Type of Final Average Compensation:

General members: Highest 4 years of compensation.

Dispatchers/Paramedics: Highest 3 years of compensation.

Public Safety: Highest 3 calendar years of compensation out of the last eight calendar years prior to retirement.

***Deferred Retirement
(Vested benefit)***

Eligibility:

General members: 10 years of service.

Dispatchers/Paramedics and Public Safety members: 10 years of credited service or age 50 with 15 of more years of service.

Annual Benefit:

Computed as regular retirement but based on service and final average compensation at time of termination. Benefits begin at age 60.

Duty Disability Retirement

Eligibility:

No age or service requirements.

Annual Benefit:

Computed as regular retirement with additional service credit granted to the earlier of the date the member would attain age 55 years or the date the member would have satisfied regular retirement eligibility conditions had the member continued in City employment.

General and Dispatchers/Paramedic members have worker's compensation offsets.

Public Safety members, depending upon whether or not they are eligible for a service retirement at the time of injury, may elect to choose between worker's compensation benefits or a disability pension.

Non-Duty Disability

Eligibility:

10 or more years of credited service.

Annual Benefit:

Computed as a regular retirement.

Duty Death in Service Survivor's Pension

Eligibility:

No age or service requirements. Must be in receipt of worker's compensation.

Annual Benefit:

Upon termination of worker's compensation a benefit equal to the worker's compensation amount shall be paid to the widow, unmarried children under 18 and dependent parents. Maximum benefit to the widow: 50% of final average compensation, to the children: 20% of final average compensation, and to the parents: 16-2/3% of final average compensation.

Non-Duty Death in Service Survivor's Pension

Eligibility:

10 years of service.

Annual Benefit:

Computed as a regular retirement but actuarially reduced in accordance with a 100% joint and survivor election.

Post-Retirement Cost-of-Living

Annual adjustments based upon changes in the Consumer Price Index subject to a maximum increase of 2.5% of the adjusted retirement allowance. The cost-of-living adjustment shall be paid on both the base pensions and, for retirements on or after 7/1/90, supplemental annuity distributions.

Member Contributions

General Members: 5.0% of annual compensation.

Dispatchers/Paramedics Members: 6.0% of annual compensation.

Public Safety Members - Hired prior to July 1, 2011: 6.0% of annual compensation.

Public Safety - Hired after July 1, 2011: 5.0% of annual compensation.

Annuity Withdrawal

A member may withdraw accumulated member contributions in a lump sum at retirement. The retirement allowance is reduced by the actuarial equivalent of the annuity withdrawn, based on actuarial assumptions concerning interest and mortality used in the annual actuarial valuation.

Pop-Up Provision

Upon the death of the beneficiary, a retiree who had previously selected either Option II or Option III will have the retirement allowance recomputed as a straight life allowance.

Section Four:

***Actuarial Assumptions
And Methods***

Actuarial Assumptions

Economic Assumptions

- (i) **Interest Rate** 8.0% (net of expenses)
- (ii) **Salary Increases**
 - Wage Inflation 4.0%
 - Merit and Longevity Age-related rates

Sample Annual Rates of Salary Increase

Sample Ages	Inflation	Merit and Longevity	
		General	Public Safety
20	4.0%	3.8%	3.0%
25	4.0	3.1	3.0
30	4.0	2.7	2.6
35	4.0	2.4	1.1
40	4.0	2.1	0.2
45	4.0	1.7	0.2
50	4.0	1.1	0.2
55	4.0	0.7	0.1
60	4.0	0.2	0.0

Demographic Assumptions

(i) Mortality

1994 Group Annuity Mortality Table

Sample Ages	Value of \$1 Monthly for Life		Future Life Expectancy (Years)	
	Men	Women	Men	Women
50	\$134.63	\$140,32	30.7	34.9
55	127.16	134.40	26.2	30.2

66	30	30
67	40	40
68	50	50
69	90	90
70	100	100

Members were assumed to be eligible for retirement after attaining age 50 with 25 years of service or age 55 with 20 years of service, or age 60 with 10 or more years of service.

Actuarial Method Used for the Valuation

Normal Cost. Normal cost and the allocation of actuarial present values between service rendered before and after the valuation date were determined using an individual entry-age actuarial cost method having the following characteristics:

- ❖ The annual normal costs for each individual active member, payable from date of hire to date of retirement, are sufficient to accumulate the value of the member's benefit at the time of retirement;
- ❖ Each annual normal cost is a constant percentage of the member's year-by-year projected covered pay.

Financing of Unfunded Actuarial Accrued Liability. Unfunded actuarial accrued liabilities were amortized as a level percent of payroll over the same 25 year period used in the prior year's valuation.

Active member payroll was assumed to increase 4.0% a year.

Section Five:
Valuation Data

Asset Summary

As of June 30, 2013, the market value of assets was reported to be \$36,715,266. The funding value of assets as of June 30, 2013 was \$37,170,824.

Participant Summary

Retirees and Beneficiaries Included in the Valuation

There were 102 retirees and survivor beneficiaries included in the valuation, with annual pensions totaling \$2,907,941. There were 5 new retirees and 2 new beneficiaries added from General and 2 new retirees and 2 new beneficiaries added for Public Safety. There were 3 retirees removed from General and 2 removed from Public Safety during the year ended June 30, 2014.

There were also 10 vested inactive members included in the valuation, with deferred pensions totaling \$131,086.

Section Six:
Supplemental Annuities

Computed Contributions for Supplemental Annuities Beginning July 1, 2015

<u>CONTRIBUTIONS FOR</u>	<u>City Contributions Expressed As Dollars Per Active Member</u>	
	<u>General</u>	<u>Public Safety</u>
Normal Cost	\$645	\$0
Unfunded Actuarial Accrued Liability	<u>5,132</u>	<u>851</u>
Total Per Member	\$5,777	\$851

Actuarial accrued liability, \$3,037,948 was reduced by accrued assets, \$1,278,943, and the resulting unfunded actuarial accrued liability, \$1,759,005, was amortized as level dollar payments over a period of 10 years, the same period used for the June 30, 2013 valuation.

Contributions for Public Safety are shown per active member for historical reasons; there are no active Public Safety members currently eligible. The dollar amount of the Public Safety contribution is \$26,378.

Supplemental Annuities

Eligibility:

Age 50 with 25 years of service, age 55 with 20 years of service, or age 60 with 20 years of service. General members who qualify for a disability retirement are also eligible. Public Safety members with retirements effective after December 31, 1994 are not eligible.

Amount:

Years of Service	Per Month
10-14	\$250.00
15-19	300.00
20-24	350.00
25 & Over	400.00

Post-Retirement Adjustments

Eligibility:

Retirements effective on or after July 1, 1990.

Benefit:

The amounts in the above table are increased 2.5% compounded each year following retirement.

Post-Retirement Survivor Benefits:

50% of the benefit is payable to the spouse of a deceased member.

Asset Summary for Supplemental Annuities

The reported market value of assets was used for the valuation of Supplemental Annuities.

Reserves	June 30,	
	2014	2013
Total	\$1,278,943	\$1,077,949

Supplemental Annuities Summary

	<u>No.</u>	<u>Annual Annuities</u>	<u>Average</u>	<u>Discounted Value of Annual Annuities</u>
