Yes:	Bryant, Ketels, Koester, McConaghy, Novitke, Shetler

The first item discussed at tonight's meeting was regarding services provided by **WCA Assessing**. The City Administrator stated things are going well with WCA Assessing providing services to the City. The Mayor stated with the upcoming retirement of Ms. Meli, he requested assurances that the City would not need to increase WCA staff time while continuing to provide continued timely and quality customer service.

Mr. Shaw stated WCA will handle some work off-site and continue with a staff person inhouse one day per week with PRE's being accepted by front office staff. Property tax liability and other questions may be referred to WCA City voice mail. He stated voice mail has worked in other jurisdictions with similar make-ups. The cost would be the same with a cost of living increase as identified in the current contract.

The City Administrator stated WCA Assessing services has worked out well, and he has received no complaints. He stated the IT Manager is working on installing a voicemail/email whereby an inquiry would be accepted by the voicemail and WCA would respond to the message accordingly. Mr. Shaw stated the voicemail outgoing message will identify in-office hours, and he anticipates being able to respond within the same day.

There was a consensus that the Committee was satisfied with WCA Assessing services.

Motion by McConaghy, seconded by Koester, to remove this item from the Committeeof-the-Whole agenda.

Motion carried by the following vote:

Yes:Bryant, Ketels, Koester, McConaghy, Novitke, ShetlerNo:NoneAbsent:Granger

Next, the Committee discussed the current **hiring freeze**. The Mayor stated that the current procedure for filling a position vacancy requires Council approval. The City Administrator and City Clerk provided an overview regarding the requirements of the current labor union contracts with respect to contractual wages offered when filling a vacated position. There was a consensus of the Committee to eliminate the requirement to obtain Council approval to fill a vacant position as long as it is not a change in staff numbers or wages.

Motion by Koester, seconded by Shetler, to remove this item from the Committee-of-the-Whole agenda.

Motion carried by the following vote:

Yes: Bryant, Ketels, Koester, McConaghy, Novitke, Shetler No: None Absent: Granger

New Business:

• The City Administrator provided an overview regarding a request from The Detroiters to film in Lake Front Park. He stated residents would not be able to use the Activities Building or the basketball court, and that the facilities have not been reserved for use. The Detroiters has offered \$2,500.00 to use City facilities for filming. They would set up in the evening on August 14, film on August 15, and remove their equipment on the August 16th. Filming in the Court Room may also be requested in the future. One stipulation discussed was that the City name not be identified. There was a consensus of the Committee to permit The

Detroiters to film in City facilities contingent upon the City not being identified, and appropriate insurance be provided.

The Chair recessed the meeting at 7:25 p.m., and reconvened at 8:16 p.m. in the Council Chambers for a power point presentation and due to the number of people in attendance.

The City of Harper Woods Vivian Sawicki, Council Member, and Randolph Skotarczyk, City Manager, were in attendance.

The Committee commenced discussing the **Milk River** project. The Chair provided an overview stating that the individuals managing the Milk River project are requesting to perform work in Lake Front Park prior to Labor Day. The concern is that there is no Easement Agreement in place and it is claimed by the contractor that the project has incurred a projected \$1.1 million overrun.

John Brennan, attorney for the Milk River Board, Steve Zajdel from Spence Brothers, and James Rydquist from Tetra Tech were in attendance to provide information to the City Council and Administration and requested permission to perform work on the Milk River project between Memorial Day and Labor Day holidays. The Mayor asked why Easement Agreements were not in place before the contract was approved noting that work is already being done at the Department of Public Works yard. He also wanted to know the total amount of down time affecting the resident's accessibility to the park. He also asked about the \$1 million dollar claimed cost overrun, and why the City was not put on notice sooner of the added cost.

Mr. Brennan stated that state revolving funds were available for the project, which saved dollars on interest payments. Dollars were available for a specified amount of time, therefore the Milk River Board went ahead and obtained bids. Their assumptions and understandings were that easements would not be a big impediment on the project. There was a consent order received from the Department of Environmental Quality indicating the project had to be started. If a restriction had been that no work would be done between Memorial Day and Labor Day, the contractor claims cost would have been significantly higher, whether easements were obtained first or now.

Mr. Brennan believed there has been some misconception regarding impacts on the park caused by work being done during the summer. He stated work will not require closing the park, the main entrance will not be used by construction traffic, work will not impact traffic out into the marina, and that work will not restrict use of the park at all. The only area that needs access by workers during summer is the pump area.

Spence Brother's letter dated July 27, 2017, states additional cost has been incurred. Mr. Brennan stated exploratory work needed to be done in order to determine the type of valves needed for the project. It can take twenty-plus weeks to receive the valves once they are ordered. The original plan was to install the valves in December, and the contract was let in June 2016. The bid specifications did not include restrictions.

The Mayor stated that the Milk River Drainage Board hired the contractor. Their attorney should have reviewed and approved the contract for the Board's review. Also involved in preparing the Easement Agreements should have been the Grosse Pointe Woods City Attorney, City Engineer, Director of Public Services, and the City Administrator.

The City Attorney stated requests for easements have been since June 7, and that he has been working with administration and Mr. Brennan since that time. The City Attorney is requesting terms such as a \$150,000.00 escrow, that Milk River pay for the City Engineer's fees, and indemnification language.

Mr. Brennan stated that no work could be performed until the Easement Agreement was signed causing a delay in the schedule and added cost.

Randolph Skotarczyk, Harper Woods City Manager, stated that 45.11% is Harper Woods share of the cost of this project. Harper Woods Council's position is that it should not have to pay 45.11% for aesthetic costs related to this project. The Milk River Board approved \$10,000.00 for landscaping projects. He stated that projections show Harper Woods is potentially responsible for \$400,000.00 of the claimed project overruns. It was his understanding that the cost overrun was not a functional issue.

Steve Zajdel On-Site Project Manager Spence Brothers

Mr. Zajdel provided an overview of the project schedule, and discussed ramifications of a shut down between December and February resulting in the project completing after the original completion date according to specifications causing cost overruns. He stated that as of today, the project is currently seven months behind. The pump station needs to put up a temporary fence to block off the bridge side while work is being performed. He stated he found out about the seasonal restriction in May of 2017. The plan was to work in the recirculation pump station in mid May, and do exploratory work in June. Two valves need exploratory work, and needs to be done before other work may commence.

The Mayor asked all of the parties to get together and provide necessary information at a Committee-of-the-Whole on August 14, 2017.

Director Schulte stated there would be minimal impact to the park and has no objection to work being done regarding the pump stations as outlined.

Mr. Brennan stated traffic will not be impeded during construction at any time, then stated it will be impeded during pipe cleaning operations. There will be an impact at the Park after Labor Day. Drilling auger caps will be loud and the work will take two weeks. A video tape will be filmed identifying the property's condition. In addition to the performance bond, a \$150,000.00 escrow is being requested at a Milk River Drainage Board meeting on August 21st, approximately 10 a.m.

The City Engineer stated the contractor is claiming \$1.1 million in new delay costs effective September 5th if the project is delayed. If access is allowed to the pump house without the restrictions outlined, then they do not expect a work delay with the

exception of possibly valves. Mr. Brennan stated a contingency is built into the project in the amount of \$2 million.

The Mayor requested administration to schedule a meeting with the City Engineer, Director of Public Services, City Administrator, City Attorney, the contractors, and the project engineer bring back necessary Easement Agreements, cost estimates caused by delays, and all concerns in preparation for a Committee-of-the-Whole Meeting on August 14, 2017, at 7 p.m. with a Special City Council Meeting immediately following. If the matter is not prepared to be addressed at the Special City Council Meeting on the 14th then it will be addressed on August 21, 2017.

The Mayor asked assuming the schedule is approved at the Milk River Board meeting August 21, 2017, will there be increased cost. Mr. Zajdel stated there will be a delay causing added cost. Even if easement issues are dropped and work starts on September 5th, the project is looking at a 7 month delay.

When asked, the City Engineer, Director of Public Services, and City Administrator did not have any objection to minimal work being done in the park before an Easement Agreement is solidified.

Council Member McConaghy was excused from the meeting at 9:45 p.m.

Motion by Bryant, seconded by Shetler, that the meeting of the Committee-of-the-Whole be adjourned at 10:00 p.m. PASSED UNANIMOUSLY.

The purpose of tonight's meeting was to discuss Milk River Easements. Mr. Rydquist provided an overview of the documents presented at tonight's meeting; Escrow Agreement, Drain Easements (Permanent and Temporary), and Temporary Access Easement.

He stated work included cleaning and repairing intake pipes that are half-full of sediment. The process includes placing a plastic liner inside of the pipes that are broken and will be reinforced from the inside with bands, approximately fifty. They will be brought in through the manhole. This work will be done from October to March over the next two years.

He stated the Ford House Easement is not completed and needs an Easement Agreement. Work requires repair of the force main. Also located underneath the Milk River is a 42" pipe with a break.

Regarding the pump station at Lake Front Park, Tetra Tech and the Department of Public Services will look at the site line for the new addition being added to the pump station and to determine if tapping into the City's water line in the park is a better option than a new water line under Jefferson Avenue. It was explained that work will include installing piles to hold the foundation of the addition. On site equipment will drive piles and pour concrete, and will last a couple of weeks. He is unsure of exactly what equipment will be needed, but is not expecting to use a crane.

A concern was raised regarding the roads and parking areas in the park having been redone and weight of vehicles and debris that will remove the sediment. Mr. Rydquist said the weight of these vehicles will not exceed the weight limit for the roads and parking area.

The Mayor briefly discussed the City Attorney's letter. Mr. Brennan stated that the City will be assessed 50% of anything that gets assessed to the Escrow. Anything actually getting spent from escrow will be assessed back to the District and the City's portion is 50.1%. The recommendation from the City Attorney is to wait until August 21st for Council to make a decision regarding the Easements, which is following the Drainage Board's meeting also being

held on the 21st to address the \$150,000 escrow. Mr. Brennan stated that before-and-after videos will be looked at closely. The contractor will be looked at to indemnify where that work should have been done correctly.

Mr. Brennan provided an overview of the Permanent and Temporary Easements as well as the Escrow Agreement. With respect to the Easement Agreement he pointed out that an escrow was an unusual request, however he will be making a recommendation to approve the Escrow Agreement to the Milk River Board.

The City Attorney, City Engineer, City Administrator and Director of Public Services all recommended the Agreements be approved at the August 21, 2017, City Council Meeting.

Mr. Brennan then addressed overruns. He has had discussions with the contractor and Tetra Tech. He received a delay notice from the contractor back in June that started concern. He is going to speak to MDEQ and there are other possibilities for ordering valves and performing field work in terms of excavation work to eliminate a delay claim. He is hoping to substantially reduce a delay claim.

Motion by Granger, seconded by Bryant, regarding Milk River Easements, that the Committeeof-the-Whole recommend the City Council approve the Escrow Agreement, Drain Easements (Permanent and Temporary), and Temporary Access Easement presented this evening.

Motion carried by the following vote:

Yes:	Bryant, Granger, Koester, McConaghy, Novitke, Shetler
No:	None
Absent:	Ketels

The following items were discussed under New Business:

- Woods/Shores Little League There was a consensus of the Council to acknowledge and celebrate the team winning Regionals, as well as moving forward to the World Series that would be similar to the last time they won.
- Music on the Lawn to be held October 25th There was a consensus of the Council for the Mayor to attempt to arrange for a food truck for the Music on the Lawn event.

Motion by Bryant, seconded by Koester, that the meeting of the Committee-of-the-Whole be adjourned at 7:59 p.m. PASSED UNANIMOUSLY.

Respectfully submitted,

RE. Final Milk River Documents for 8/14/17 COW

Dear Honorable Mayor and Council:

The attorney for the Milk River Drainage District (John Brennan) and I have been working on the final documents (easements and escrow agreement), see attached. Ms. Hathaway will make copies available for you for the meeting this evening. Bruce Smith, Scott Lockwood and Frank Schulte have been involved in the drafting process and have reviewed these documents.

Because the Escrow Agreement still requires a final vote from the Drainage District at its August 21st 10:00 a.m. meeting, I believe the appropriate course of action is for the Committee of the Whole, if satisfied, to recommend final approval of the enclosed documents at our Council meeting on Monday, August 21st.

To briefly summarize the Escrow Agreement, it would require a deposit of \$150,000.00 in cash to Comerica (the escrow agent), the purpose is to insure restoration of the temporary easement area to a condition substantially similar to the prior existing condition. That language is already in the Easement Agreements as well (which requires videotaping to establish the prior existing condition). In addition, the Escrow Agreement has various cutoff dates regarding providing notice between the parties regarding substantial completion, opportunity to cure, notice of default, etc.

As to the easement documents, language indemnifying the City has been added into both easement documents. Language has been added to allow work inside the fenced in area around the pump house facility between Memorial Day and Labor Day with access through the pump house gate off of Jefferson Road.

Arrangements have been made through Mr.Schulte to erect the fence around the pump house August 17th.

If you have any questions regarding these documents prior to the meeting my cell phone is 313.647.2828. Thank you.

Very truly yours, his Berschback

WHEREAS, a condition of the Easement Agreement is that the Drainage District shall cause the Temporary Easement Area to be video recorded prior to any construction activity to document existing conditions, and a copy of the video shall be provided to City for review and approval, and that upon completion of construction activities, the Drainage District at its sole cost shall restore the Temporary Easement area to a condition substantially similar to the condition existing prior to the commencement of construction activities ("Restoration Obligation"); and

WHEREAS, as a condition of entering into the Easement Agreement and conveying the Temporary Easement to the Drainage District, the City desires to obtain security in the form of a cash bond held in an escrow account, ("Escrow Account"), to assure that the aforementioned condition is satisfied and to assure that in the event it is not satisfied that the City may effect the immediate repair and restoration promised by the Drainage District in the Easement Agreement; and

In the event that such a copy is not provided, the City may request the certificate which shall then be provided by the Drainage District within seven (7) days. If the certificate of substantial completion has been issued but a copy of same has not been provided to the City as set out in this paragraph, the obligation under paragraph 5a shall be replaced by a certificate issued by the City's Manager, and a copy sent to the Drainage District,

that a request has been made to the Drainage District for a copy of the certificate of substantial completion and it has not been honored. The notice required under paragraph 4b must be made within fourteen (14) days of the date of delivery to the Drainage District of the certification by the City's Manager that the City's request for a copy of the certificate of substantial completion has not been honored.

DRAIN EASEMENTS (PERMANENT AND TEMPORARY) MILK RIVER INTERCOUNTY DRAIN

For and in consideration of the payment of One (\$1.00) Dollar, and other valuable nonfinancial consideration, the City of Grosse Pointe Woods, a municipal corporation, whose address is 20025 Mack Plaza, Grosse Pointe Woods, Michigan 48236 ("Landowner") who is the owner of lands described in Exhibit A ("Property"), now conveys and releases to the Milk River Intercounty Drain Drainage District ("Drainage District"), whose address is 400 Monroe, Suite 400, Detroit, Michigan 48226, a permanent easement ("Permanent Easement") and a temporary easement ("Temporary Easement") for purposes of establishment, construction, operation, maintenance and improvement of the Milk River Intercounty Drain ("Drain") over and across the Property. The Permanent Easement and Temporary Easement are described and depicted in the attached Exhibit B ("Permanent Easement Area," "Temporary Easement Area," and collectively, "Easement Areas"). A sketch of the Property and the Easement Areas is attached as Exhibit C.

This conveyance shall be deemed a sufficient conveyance to vest in the Drainage District, an easement over the Permanent Easement Area for the uses and purposes of drainage, including the construction, operation, maintenance and repair of a pump station and appurtenances, with such rights of entry upon, passage over, storing of equipment and materials including excavated earth and the spreading and/or removal of spoil and excavated materials as may be necessary or useful for the establishment, construction, operation, maintenance and improvement of said Drain.

This conveyance shall also be deemed a sufficient conveyance to vest in the Drainage District, an easement over the Temporary Easement Area for the uses and purposes of entry upon, ingress and egress, passage over, temporary storing of equipment and materials (including excavated earth) as may be necessary or useful for the establishment, construction, operation, maintenance and improvement of said Drain. The Drainage District shall cause the Temporary Easement Area to be video recorded prior to any construction activity to document existing conditions, and a copy of the video shall be provided to Landowner for review and approval. Upon completion of construction activities, the Drainage District at its sole cost shall restore the Temporary Easement area to a condition substantially similar to the condition existing prior to the commencement of construction activities. In addition, during construction activity, the Drainage District shall cause the Temporary Easement area to be swept periodically as needed, and no material shall be stockpiled for longer than 72 hours within the Temporary Easement Area unless it is intended for future use on the project. This Temporary Easement shall terminate upon discharge by the Drainage District, but in no event, later than three years from execution of

1

this Temporary Easement. It shall not be necessary to record an executed discharge for the Temporary Easement to terminate; however, the Drainage District may unilaterally execute and record a discharge of this Temporary Easement at any time prior to or upon the expiration of the three year period. Upon termination, if requested by Landowner, the Drainage District will provide Landowner a written Release of Temporary Construction Easement.

Notwithstanding the foregoing, the Drainage District shall perform no work within the Temporary Easement Area or outside of the fenced-in area around the pump house facility in the Permanent Easement Area from the Friday before the legal holiday of Memorial Day through and including the legal holiday of Labor Day. Work to be performed inside the fenced-in area around the pump house shall be governed by the following conditions:

- a) Access only through Jefferson Road address. Contractor and Landowner to coordinate details regarding access of emergency vehicles (e.g. fire trucks) through Jefferson Road gate into Park.
- b) Contractor and Drainage District to work with Director of Public Service to minimize effect on bridge and marina to the extent reasonably possible.

The Drainage District shall indemnify and hold the Landowner, its elected officials, appointed officials, attorneys, employees, agents, from all claims, causes, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all Court or arbitration or other dispute resolution costs) arising out of or relating to the performance of the work, provided that any such claim, cause, loss, or damage is attributable to bodily injury, sickness, disease, or death, or to injury or to destruction of tangible property (other than the work itself), including the loss of use resulting therefrom but only to the extent caused by any negligent act or omission of the Drainage District any contractor, subcontractor, any supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the work or anyone for whose acts any of them may be liable.

Non-movable or permanent structures shall not be constructed by Landowner, its agents, employees, or contractors within the specific limits of the Permanent Easement Area and Temporary Easement Area without the prior written consent of the Drainage District, while the easements are in existence. This conveyance shall also be deemed sufficient to vest in the Drainage District an easement over the Permanent Easement Area and Temporary Easement Area for the clearing of same.

This Easement Agreement shall be binding upon Landowner, and the Drainage District, their heirs, assigns, successors in interest and successors in office and be deemed to run with the land in perpetuity.

Landowner represents and warrants only that to the best of Landowner's knowledge, and without investigation, it believes it has good and marketable title to the Easement Areas free from all defects, liens, taxes, prior or superior interests or otherwise. Landowner has no knowledge of any title defects which would prevent it from granting the property interests described herein.

RE: 6ft fence at 20155 Morningside Dr., GPW, MI 48236

To whom it may concern:

I represent Mr. and Mrs. Samuel A. Randazzo who reside at 20155 Morningside Drive, Grosse Pointe Woods, MI 48236.

The Randazzo's have had a 6ft rear and side yard wood stockade fence erected on their property for over the past 20 years. In fact, the original wood fence also needed to be replaced approximately 10 years ago because of decay and unsightliness. A new stockade fence of the same wood material and 6ft height was installed in the same location.

Unfortunately, the wood material has once again decayed throughout the years causing the wood to rot, which not only become an eye sore, but was also in an unsafe and hazardous condition.

Fortunately, the Randazzo's were able to recently erect a new 6ft vinyl fence requiring little to no maintenance, that was more appealing, safer and has a much greater life expectancy.

However, my clients have received a violation notice that said fence does not comply with the new city ordinance. I say a portion, because upon information and belief, a 6ft fence is permitted on their boundary line along Morningside under the new ordinance.

The contiguous neighbors have agreed to said fence and we are submitting the appeal hoping that it will be granted based on the abovementioned facts and circumstances and in avoidance of the undue hardship to dismantle and replace the improved 6ft vinyl fence on my client's property.

Very truly yours,

nthony Urbani, II

CITY OF GROSSE POINTE WOODS BUILDING DEPARTMENT MEMORANDUM

RECEIVED AUG 1 4 2017 CITY OF GROSSE PTE. WOODS

DATE: August 10, 2017

TO: Mayor & City Council

FROM: Gene Tutag, Building Official

SUBJECT: 20155 Morningside, Fence Variance

A new 6' high solid vinyl fence was installed in the west rear (90'), north side (84'), and front yard (27') of this property without the required permit or approvals from the City. An application was subsequently filed and cannot be issued as the fence is in violation of Sections 8-279(1), 8-281 and 8-282(1) of the City's fence ordinance. A permit for the section of fence installed along Morningside (east) can and will be issued.

The applicant's property is on an interior lot on the west side of Morningside.

An exception to the fence code requires a public hearing and approval from the City Council. The City Council may consider any or all of the following, along with other information when deciding a variance:

- (a) Balancing the relative hardships between the property owner and adjacent property owners;
- (b) Whether special circumstances or conditions exist;
- (c) Whether pedestrian or vehicle traffic will be affected;
- (d) The general health, safety and welfare of the neighborhood.

The applicant's attorney has provided correspondence outlining why the fence was installed; however, none of the above criteria was addressed that would justify the grant of the variances.

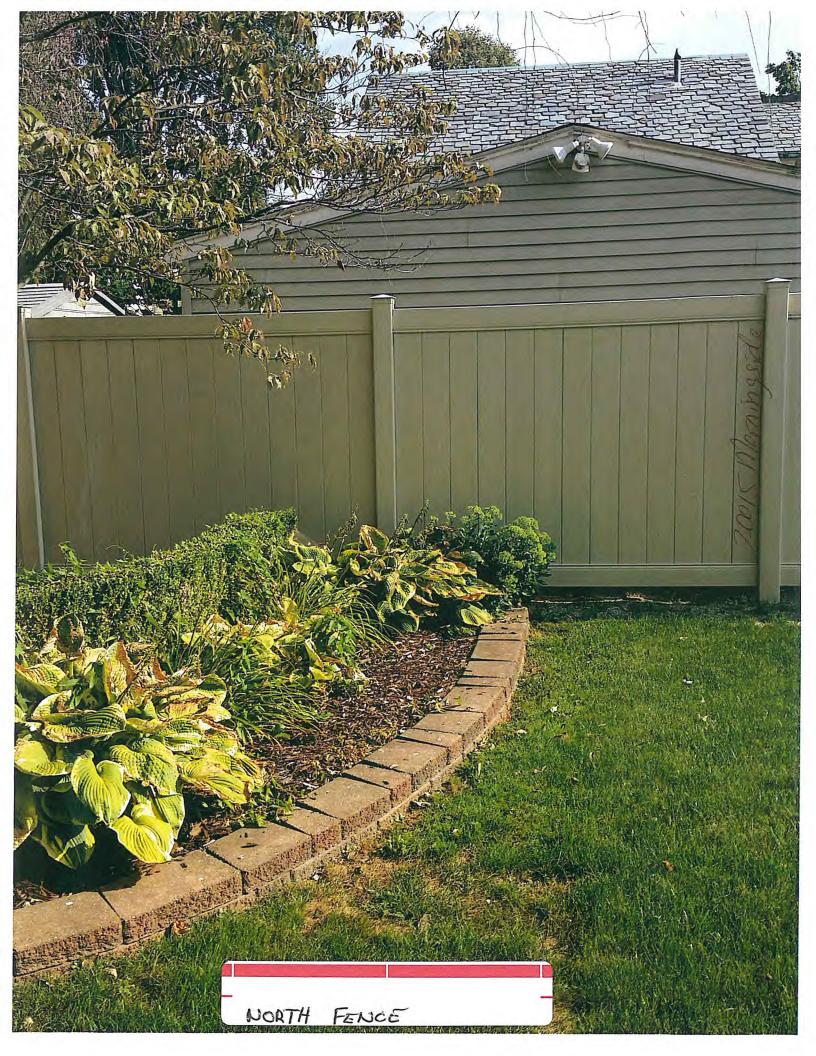

After review of the application and inspection of the property, it is recommended that a variance of Sections 8-279(1), 8-281 and 8-282(1) not be granted allowing for the installation of the proposed 6' solid vinyl fence along the rear and side yards as shown on the attached plans. The plight of the owner is self-created as the fence was installed without permit or approval of the City. There are no special circumstances, relative hardship, or conditions that exist that would justify the grant of his variance.

Office of the City Clerk

Memorandum

DATE:	August 11, 2017
то:	Mayor and City Council

FROM: Lisa Hathaway, City Clerk

SUBJECT: Reschedule Council Meetings prior to Elections

I am requesting that the City Council approve rescheduling City Council Meetings that immediately precede Election Days to the following Monday. Meeting Mondays average a 13-14 hour workday. Clerk's staff is required to be in the office by 5:30 a.m. on Election Day to open the Voter Office, give direction to Public Works staff for distributing the ballots and laptops to the precinct Chairs, as well as to troubleshoot incoming calls from the precincts when preparing to open the polls. Election Day is generally a 17-18 hour workday.

Additionally, the final week prior to an election is a very busy time in the Clerk's office while in addition to election administration, preparing for Monday meetings. Agenda preparation requires gathering necessary information, analyzing, and preparing a Council Agenda and pink. In cases where multiple meetings are scheduled, preparation of more than one agenda is required. Rescheduling the City Council meeting would postpone agenda preparation to the Tuesday following the election, creating a time management plan that would better facilitate both elections administration and meeting preparation.

Thank you for your consideration.

Re: Bank of New York Mellon Debt Service Bank Account

On August 17, 2017 I was contacted by the Bank of New York Mellon regarding a dormant debt service account within their institution which holds a current balance of \$197,990.98. They requested authorization to return the funds to an active City account and provided the attached authorization forms for signature.

The Incumbency Certificate/Authorized Callbacks authorizes myself and the City Administrator as authorized officers of the City and certifies that we can execute written direction, confirmation and receive callbacks regarding this monetary transfer.

The Facsimile/Email Instructions: Authorization form authorizes the bank of New York Mellon to rely on instructions and directions send by email, fax and/or other electronic methods.

I would request Council approval to authorize the City Clerk to execute the Incumbency Certificate/Authorized Callbacks form and authorize myself to execute the Facsimile/Email Instructions: Authorization Form.

Thank you.
